-----  
Note: All analyses must be done using methods specified in 21CFR 165.110(b) and "Standard Methods for the Examination of Water and Wastewater.

- \* Standard Methods for the Examination of Water and Wastewater
- \*\* Total Trihalomethanes (TTHM): Sum of chloroform, bromodichloromethane, chlorodibromomethane, and bromoform. 10 ppb Pursuant to H&SC 111080(b).
- \*\*\* Radioactivity  
Combined Radium 226 and Radium-228: If gross alpha is <5pCi/L, Radium 226 does not have to be analyzed. Determine only Radium-228.  
  
Uranium: If gross alpha is <15pCi/L, uranium does not have to be analyzed.
- \*\*\*\* Residual Disinfectants and DBP's: (1) Source water – Firms, that do not use a public water system as the source of their water and whose source water has not been treated with a chlorine-based disinfectant or ozone, do not have to test their source water for residual disinfectants and DBP's.

Firms, that do not use a public water system as the source of their water but whose source water has been treated with a chlorine-based disinfectant or ozone, must test their source water for the residual disinfectants and the DBP's [21CFR 129.35(a)(4)(iii); 66FR 16865. 3/28/01]; (2) Product water (Bottled Water) - Test annually for residual disinfectants and DBP's.

Frequency of Testing:

Group I, II, III, IV, VII:	Every year
Group V:	Source Water - Every 4 years Bottled (Product) Water - Every Year
Group VI :	Weekly.

*Note <sup>"b"</sup> on Group IV (Limited Waiver: Product Water Only): You may apply for "Limited Waiver for Reducing the Frequency of Testing for four SOC's in Group IV (Diquat, Endothall, Glyphosate, Dioxin) in bottled water (product water) by contacting the FDB Licensing Desk at (916)-650-6522. In order to obtain the waiver, your firm must test your product water, using approved analytical methods, for four consecutive quarters; and submit a written request with test data demonstrating that the finished product water at issue contained no detectable level of any of the four SOC's during the four quarters. After reviewing your request, FDB may issue a letter authorizing you to reduce the testing frequency of the 4 SOC's to once every three years. Each year, you must attach a copy of the letter to the annual test report for product water, which is required to be submitted for renewal of your license.*

*Limited Waiver (Source Water Only): You may apply for "Limited Waiver for Reducing the Frequency of Testing of Certain Substances in Source Water" by contacting the FDB Licensing Desk at (916)-650-6515. [Note: No waivers will be issued for product water.]*
